toutes les sources d'informations utiles pour les professeurs débutants des écoles collèges et lycées

mon roman tantôt ironique tantôt empathique révèle la vie des enseignants à travers un jeu de miroir vie coincée entre la covid 19 qui tue encore et encore et la décapitation de samuel paty par des extrémistes mon objectif est de porter un regard sur le monde des professeurs dont le rôle est de transmettre leur savoir les épigrammes de ce roman rappellent comme une petite musique combien la littérature est nécessaire dans ce monde chaotique

le professeur marty nous raconte une histoire passionnante de la physique à travers les siècles de l'observation du ciel par l'homme à la nuit des temps jusqu'à la conquête de mars on revit l'aventure humaine et ses progrès immenses ce qui s'est passé dans le cosmos il y a plus de 13 milliards d'années a conduit l'homme à mieux comprendre les lois de la physique embarquez dans un long voyage à la découverte des sciences de l'astronomie à la cosmologie jusqu'aux origines de l'univers vous découvrirez les forces de la nature qui nous gouvernent vous comprendrez la naissance du socle scientifique de la science physique à la poursuite de l'infiniment petit de la mécanique classique à la mécanique quantique vous découvrirez un monde étrange et complexe qui conduit l'homme à la conquête spatiale et les nouvelles frontières qu'il se fixe pour comprendre mieux l'organisation de la matière dans l'univers
